WORK EXPERIENCE

Meta

Dec 2025 – May 2026

Data Engineer, Product Analytics

Bellevue, WA

- Led the development of the Instagram Edits Effects Performance automated regression detection and AI-driven remediation initiative, used by 14 engineers on the IGLU Graphics Engineering team, which drastically reduced regression fix times for effects. Designed scalable data models, orchestration pipelines, and monitoring dashboards that supported closed-loop agentic performance optimization workflows.
- Developed executive-facing Media Foundation Goal dashboards that enabled managers and directors to monitor over 30 OKRs across Core, Server, and Client pillars, enhancing visibility into product health metrics and accelerating data-driven prioritization and investment decisions organization-wide.
- Collaborated with the Instagram Edits Foundation team to design and implement video playback performance metrics, enabling A/B testing and application health monitoring for iOS and Android releases, which reduced playback experience regressions by 20%.
- Built semantic data models and AI-ready analytics metadata for the Instagram Edits domain, partnering on evaluation and hill-climbing initiatives that improved AI query evaluation accuracy from over 90%.

State Farm

Feb 2020 – Nov 2025

Lead Data Engineer

Bloomington, IL

- Led a large-scale cloud migration project to transition on-premise services to AWS, adhering to business requirements and meeting SLAs. Strategically redesigned the architecture from Serverless Design to ROSA EKS, cutting costs by 40% and boosting average performance by 70%.
- Served as the primary liaison for business stakeholders across 20 product areas, coordinating with upstream producers to validate business events. Built data pipelines and enforced data quality checks using AWS Kinesis, Lambda, Glue, and Firehose to optimize the data lake for analytics.

EDUCATION

Georgia Institute of Technology

Aug 2023 – Present

Masters in Computer Science - GPA: 4.0

Atlanta, GA

University of Illinois at Urbana-Champaign

Aug 2016 – Aug 2019

Bachelors in Computer Science

Champaign, IL

SKILLS

- Languages: Python, SQL, PostgreSQL, Java, C, Bash, HCL
- Technology: AWS, Azure, Terraform, Docker, Splunk, Dynatrace, Kafka, PySpark, Kubernetes

CERTIFICATIONS

AWS Solutions Architect Associate

Aug 2022

Hashicorp Terraform Associate

Feb 2023
